

KPI Safety Information SaIN-July-2013 **(Life-Boat Safety Update)**

1 January 2013

SOLAS amendments entered into force requiring On-Load Release and Retrieval Systems (OLRRS) to comply with the LSA code.

1 July 2013

Ship operators should have identified the type of OLRRS fitted on board their ships
Manufacturers must have assessed their OLRRS

[MSC.1/Circ.1206/Rev.1](#) MEASURES TO PREVENT ACCIDENTS WITH LIFEBOATS becomes mandatory
ELIMINATE the possibility of an accident initiated by human error or faulty equipment.

1 July 2013

Ship operators should ensure that suitable fall prevention devices (FPDs) are fitted

REMINDER

IMO circular [MSC.1/Circ.1327](#) (June 2009) states:

Fall preventer locking pins should not be used for any other purpose and should be **fitted to the lifeboat at all times.**

Fall preventer stops or slings should not be used for any other purpose and should be **fitted to the lifeboat at all times.**
